EDUCATION

Dronacharya Group Of Institution , Greater Noida , India

2023-2027

Bachelor of Technology , CSE

CGPA: 8.1 / 10

EXPERIENCE

Software Developer Intern | Rosmerta Technologies Limited | On-site

July 2026 – Present

- Developing a high-concurrency order management system using Java, Spring Boot, and PostgreSQL to support reliable order processing.
- Implementing secure authentication and authorization using Spring Security and JWT.
- Designing RESTful APIs for product management, user management, order processing, and dashboard analytics.
- Building responsive frontend modules using React and integrating them with backend APIs.
- Applying database locking and transaction management concepts to maintain data consistency during concurrent order processing.
- Working with Git, IntelliJ IDEA, PostgreSQL, and modern software development practices in a collaborative development environment.

PROJECT

AQUASTORE – ENTERPRISE WATER MARKETPLACE

[Deployment Link](#)

Tech Stack: Spring Boot, React, PostgreSQL, JWT

- Developed a full-stack e-commerce platform with secure authentication and role-based access.
- Designed REST APIs for products, orders, carts, and user management
- Implemented transaction handling and database locking to support concurrent order processing.
- Integrated PostgreSQL with Spring Data JPA for efficient and reliable data persistence.

ZENVYX - AI CAREER INTELLIGENCE & EMPLOYABILITY PLATFORM

[Deployment Link](#)

Tech Stack: React, Spring Boot, PostgreSQL, JWT, REST APIs

- Developing an AI-powered platform that helps students improve employability through resume analysis, skill-gap identification, and personalized career guidance.
- Implementing secure user authentication, resume management, and interactive dashboards using Spring Boot and React.
- Designing scalable backend architecture with PostgreSQL for user profiles, career data, and application workflows.
- Building features such as AI-powered resume insights, interview preparation modules, and career progress tracking with a focus on creating a production-ready SaaS application.

TECHNICAL SKILLS

- Programming Languages :** Java, Python, JavaScript, C++, HTML5, CSS3
- Backend :** Spring Boot, Spring Security, REST APIs, JWT Authentication, Node.js
- Frontend :** React, Vite, Tailwind CSS, React Router
- Database :** PostgreSQL, MySQL, SQLite, Database Design
- Tools & Platforms :** Git, GitHub, IntelliJ IDEA, VS Code, Postman
- Machine Learning & AI :** Python, OpenCV, NLP
